Notes:

1. The market value of Rs. 5,381 Lakhs of the immovable property is on the basis of valuation done for September 30, 2023.

2. Receivables under financing activities consist of loans which are carried at amortised cost. The business model for managing these loans is "hold to collect" cash flows that are solely principal and interest. Accordingly these loans are not fair valued and the book value of loans (before adjustment of cash collateral and impairment provision) is considered as the value of security for the purpose of this certificate.

3. This represents secured unlisted debt securities.
